

# KS1 - Environment

## Learning points:

- Understand all the good things we gain from our local environment: nature connectedness, wildlife, food, space to play.
- Understand the impact of humans on the local environment including: littering, air pollution, property development.
- Discuss ways to positively impact the local environment for ourselves and the future (litter picking, recycling, walking to school, looking after things so they last, upcycling etc.)
- Understand the impact of poor environmental management on local wildlife.
- Understand reasons why people would like to help the local environment.

## Supporting Resources:

- <https://www.eco-schools.org.uk/>
- Litter related texts: Clean Up! By Nathan Byron; What a Waste by Jess French; Litterbug Doug by Ellie Bethel.

## Possible experiences:

- Litter picking with Five Acre.
- Walk to school day.
- Tyland Barn visit
- Environment workshop
- <https://www.ecoactive.org.uk/primary-workshops>

## We already know:

- What we should do with our rubbish.
- Some local wildlife.
- Positive impacts of nature connectedness.

## Key Vocabulary

Environment	The natural surroundings in which a person lives.
Litter	Rubbish that has been left lying on the ground.
Pollution	The process of filling the air, water or land with harmful or poisonous materials.
Waste	A material which has been used and is no longer wanted.
Wildlife	Wild animals that live in the local area.
