

# The Rainforest

By Maria / Naisie / Joey

Mia / Jimmy / Nichela

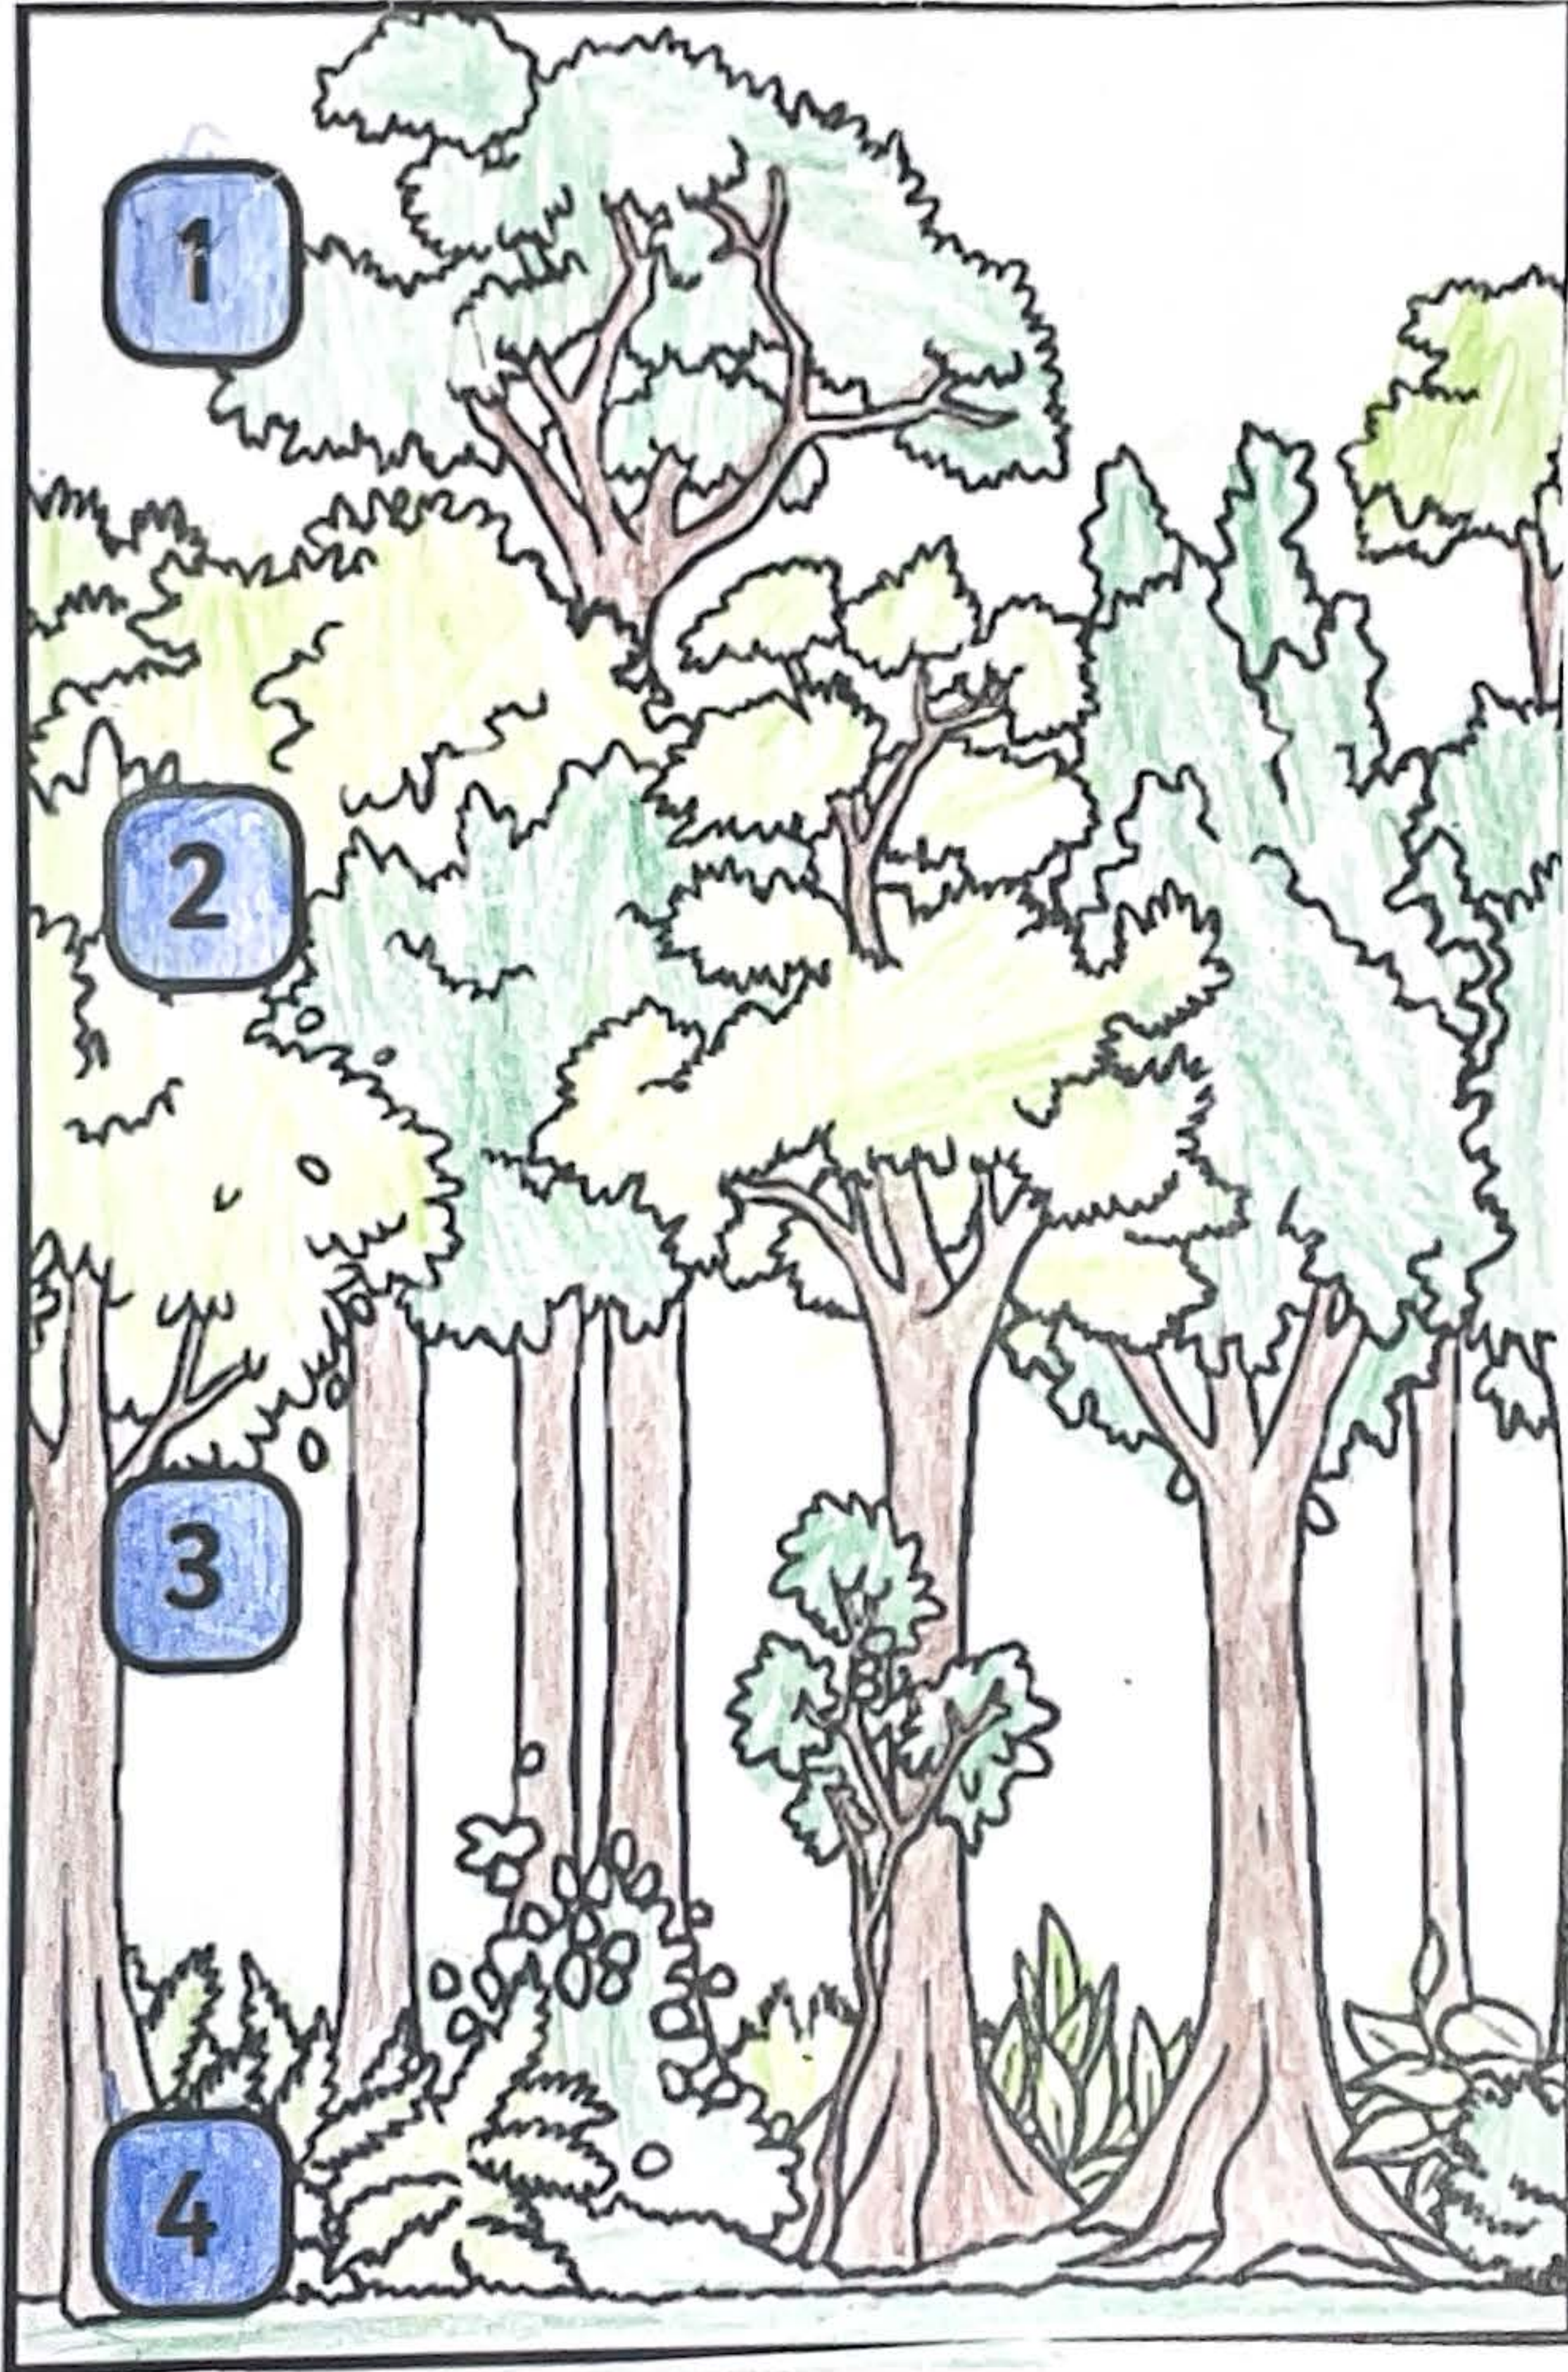

The Amazon rainforest is the largest  
\*rainforest in the world.  
The Awa ~~tribe~~ are in a ~~tribe~~ living in  
the east of Brazil.  
The men hunt for food using long bows  
~~the~~ the Awa keep wild

# RAIN FOREST LAYERS

By maria

Emergent layer

Canopy layer

Understory layer

Forest floor

Only the tallest trees reach here.

many animals live here because there is lots of food.

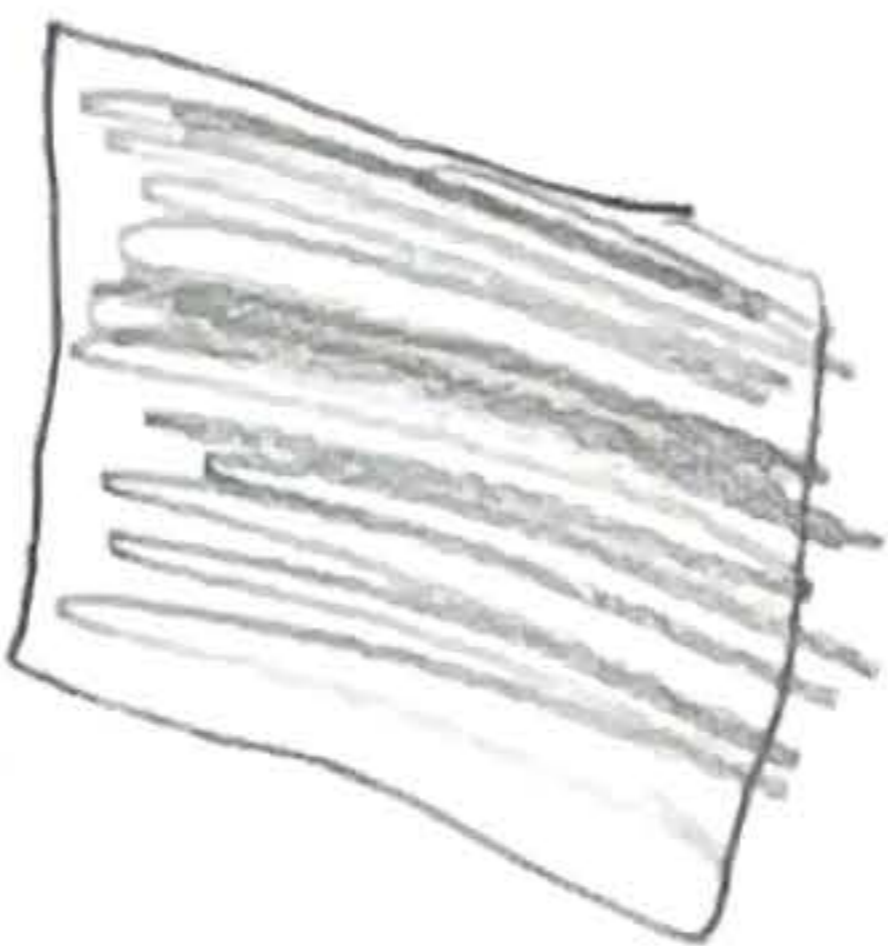

It's very dark and damp on this level

leaves and other debris decomposes very quickly

Amazon Rain Forest

hot  
wet  
wet open  
savanna

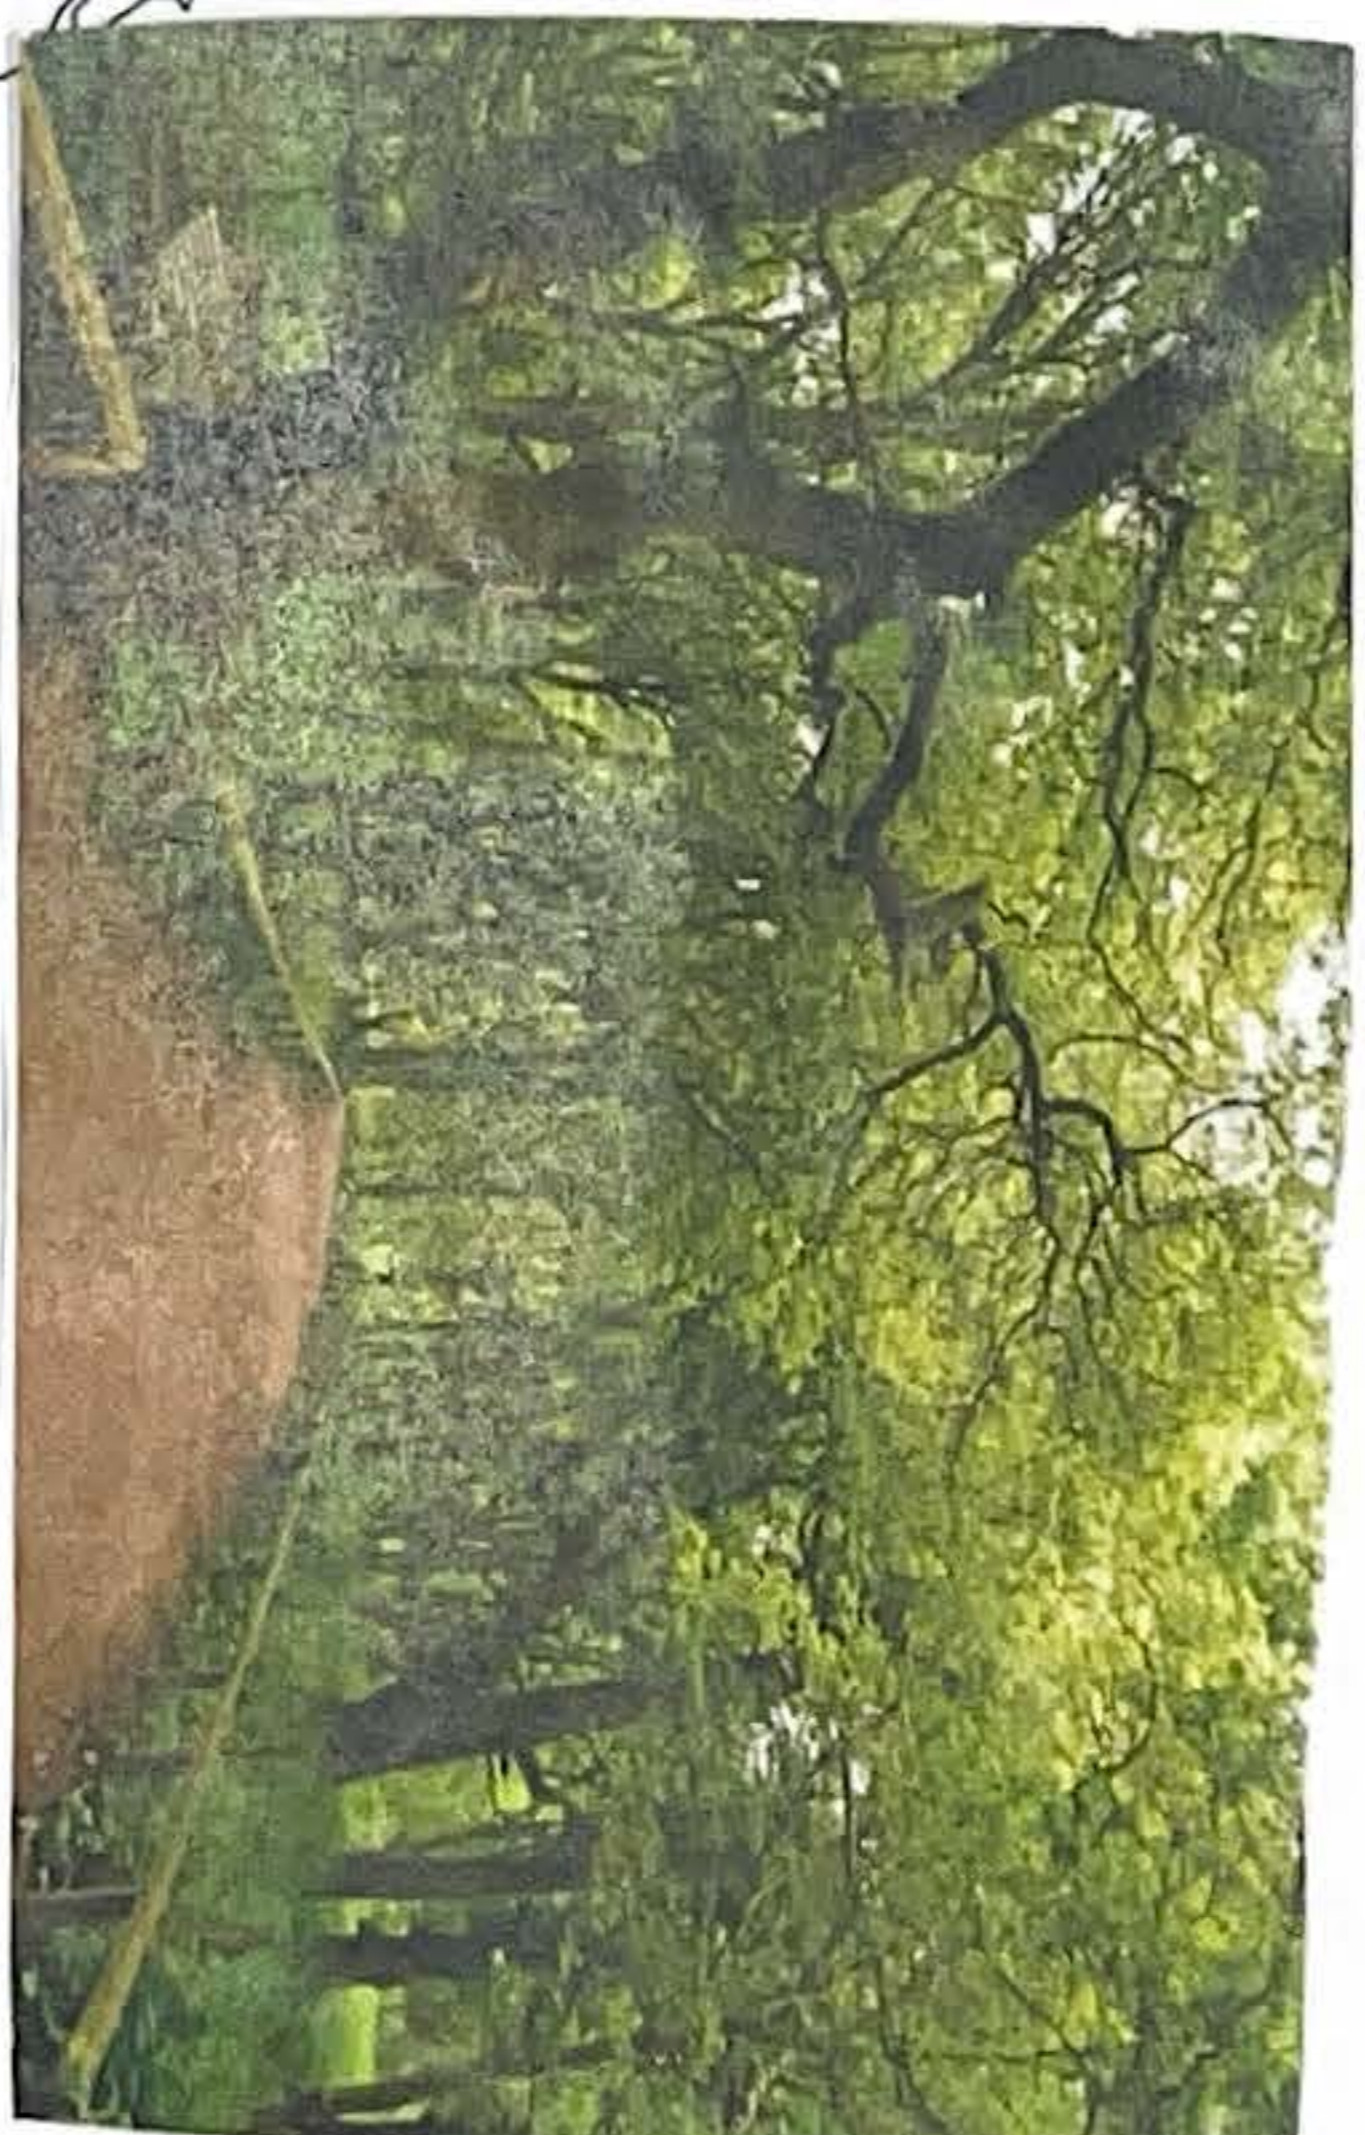

The Amazon Rainforest is in Brazil and Peru

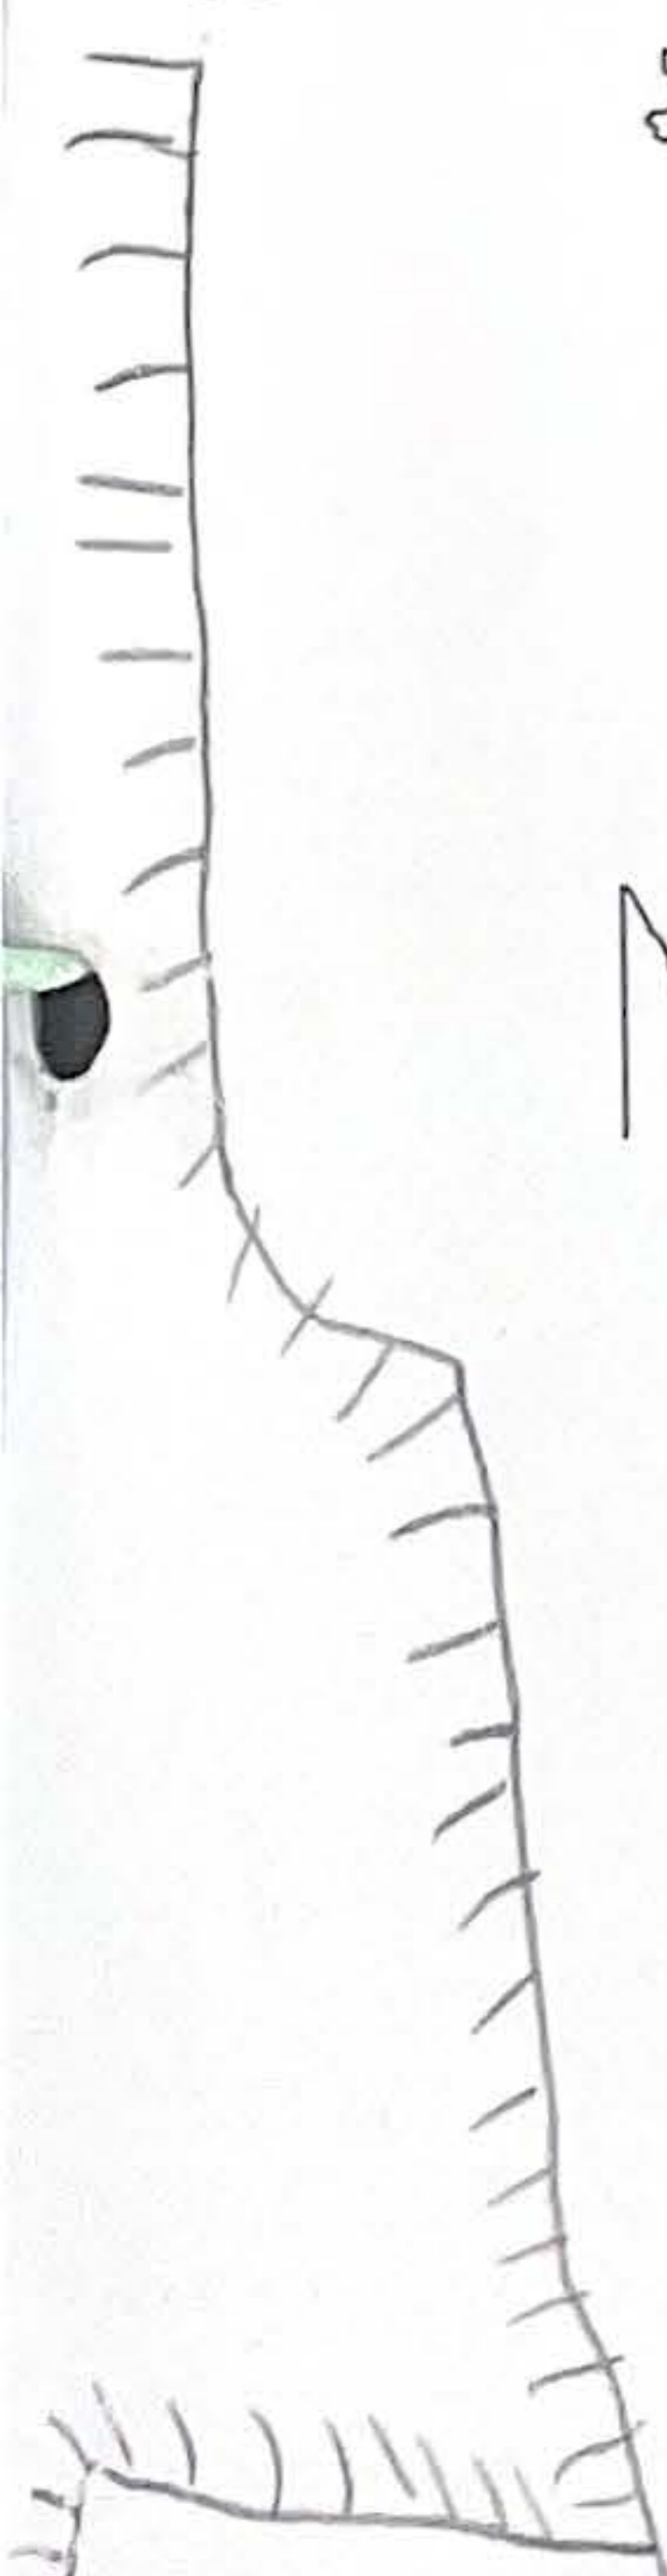

Big Mist

Sherwood Forest is in check.
