

KS1 - Health

Curriculum Links:

- Know the names the main parts of the body including external genitalia (e.g. vulva, vagina, penis, testicles)
- Understand how people's needs change when growing from young to old.
- Understand what keeping healthy means and know different ways to keep healthy.
- Know which foods that support good health and the risks of eating too much sugar.
- Understand how physical activity helps us to stay healthy; and ways to be physically active everyday
- Understand why sleep is important and different ways to rest and relax.
- Learn simple hygiene routines that can stop germs from spreading.
- Learn that medicines (including vaccinations and immunisations and those that support allergic reactions) can help people to stay healthy.
- Discuss dental care and visiting the dentist; how to brush teeth correctly; food and drink that support dental health.
- Know how to keep safe in the sun and protect skin from sun damage.
- Learn about things that people can put into their body or on their skin; how these can affect how people feel and act.

Key Learning:

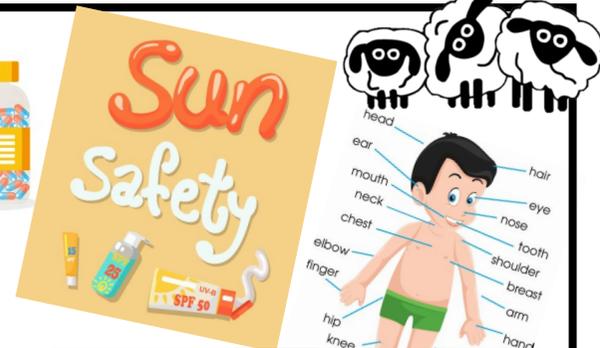

- Know that it is important to maintain high standards of personal hygiene including genitalia and dental hygiene.
- Know where to seek help if worried about health.

Possible experiences:

- Dentist visit
- Brushing teeth day.
- Sun block experiment
- Healthy snack swaps
- Creating a body map– outline where is okay to touch or not.

We already know:

- Different names for body parts including some colloquial names for external genitalia.
- Some ways to keep healthy in terms of diet and exercise.
